Facilities Manager is published by **APPA**, the leading authority for the educational facilities professional!

Published six times a year, *Facilities Manager* covers key trends and standards in facilities renewal and modernization, sustainability, campus operations, grounds maintenance, and energy and utilities management.

APPA is the association of choice for 5,200 educational facilities professionals at more than 1,500 colleges, universities, and K-12 schools throughout the United States, Canada, and abroad. This includes top decision makers – vice presidents, chief engineers, directors, supervisors, and managers. They read *Facilities Manager* because it addresses the latest trends, issues, and solutions in educational facilities management.
