The opinions expressed are those of the authors and do not necessarily reflect the views of APPA. Editorial mention of companies or products is for informational purposes only and should not be construed as an endorsement, actual or implied, by APPA.

POSTMASTER: Send address changes to *Facilities Manager*, 1643 Prince Street, Alexandria, VA 22314-2818.

## About APPA

APPA promotes leadership in educational facilities for professionals seeking to build their careers, transform their institutions, and elevate the value and recognition of facilities in education. Founded in 1914, APPA provides members the opportunity to explore trends, issues, and best practices in educational facilities through research, publications, professional development, and credentialing. Formerly the Association of Physical Plant Administrators, APPA is the association of choice for more than 13,000 educational facilities professionals at more than 1,500 learning institutions throughout the United States, Canada, and abroad. For more information, visit us at [www.appa.org](http://www.appa.org).

## PROMOTING THE SMART AND SUSTAINABLE CAMPUS

### APPA continues its involvement

in a number of programs focusing on aspects of environmental stewardship and campus sustainability. Within the past year, APPA has published two related books in the new Critical Issues in Facilities Management series: *Energy Efficiencies* and *Environmental Sustainability*. Both titles have been selling well and are available in the APPA bookstore at [www.appa.org/bookstore](http://www.appa.org/bookstore).

APPA again serves on the program committee for the 10th annual Smart and Sustainable Campuses Conference, to be held March 30-31, 2015 in Baltimore, Maryland. APPA and coordinating host, the University of Maryland, are the only two organizations that have been with the conference from its beginnings ten years ago. The conference theme is Honoring Our Past, Charting Our Future, and will include a wide array of presentations, workshops, plenary speakers, and exhibit hall business partners to provide a focused and manageable learning and networking opportunity. Learn more about the conference at [www.sustainability.umd.edu/content/community/SSCC.php](http://www.sustainability.umd.edu/content/community/SSCC.php).

The March/April 2015 issue of *Facilities Manager* will highlight campus sustainability and net-zero buildings, among other topics, and will be distributed to attendees of the Smart and Sustainable Campuses Conference.

Another effort that APPA supports from a content standpoint is the Campus Environmental Resource Center, or CampusERC. The CampusERC was established to provide individu-

als and educational institutions with the knowledge and tools to maintain environmental regulatory compliance, improve management, and operate sustainably. The CampusERC website was developed by a grant from the U.S. Environmental Protection Agency and led by the National Association of College and University Business Officers, with content and promotional assistance from APPA, the Campus Safety Health and Environmental Management Association, and C2E2. We urge you to visit and use the resource center at [www.campuserc.org](http://www.campuserc.org).

These are just a few of the ways in which APPA supports, develops, and promotes good environmental stewardship at educational institutions. Others include programming in energy, sustainability, and leadership at the Institute for Facilities Management and at our annual conference, the next of which will be August 4-6, 2015 in Chicago, Illinois. 

### Coming in Jan/Feb 2015

- Planning, Design, Construction
- P3, Public-Private Partnerships
- Building & Systems Commissioning
- Reports from 2014 Regional Conferences
