

APPA Standards & Codes Action Update

Latest News from NFPA NFPA® 5000® Building Construction and Safety Code® - 2018 Edition

A Tentative Interim Amendment is tentative because it has not been processed through the entire standards-making procedures. It is interim because it is effective only between editions of the standard. A TIA automatically becomes a public input of the proponent for the next edition of the standard; as such, it then is subject to all of the procedures of the standardsmaking process.
