Starting a garden is one of the most rewarding things you can do whether planting florals or vegetables we all benefit from getting our hands a little dirty as our efforts will be a beautiful visuals or delicious flavors.

As an APPA community we are going to focus on getting our hands a little dirty so that we can grow our neighborhoods to enhance them and grow them into a community that will be sustained and sought after.

Remember it take a Community to be successful. No one truly succeeds unless everyone succeeds.
