

# *Competing Perspectives*

Jay Klingel, University of Virginia  
Joe Bilotta, JBA Incorporated

### Who is the Owner?

- State
- Institution
- Department
- FM
- City/Community
- Private party (lease)
- Other

---

---

---

---

---

---

---

---

### Who is the Client?

- State
- Donor
- Student
- Program
- FM
- Community
- Other

---

---

---

---

---

---

---

---

### Who is more important?

---

---

---

---

---

---

---

---

### Stakeholders

- Identify all the potential stakeholders
  - User
  - Institution
  - State, Board
  - FM
- Measuring level of influence
- Balancing competing perspectives (juggling)
- Internal FM Stakeholders

---

---

---

---

---

---

---

---

### Stakeholder Issues

- Decision points
  - Who is involved in decision making at early stages of project development (client vs owner)
  - How to include all stakeholders without causing delays
  - Communication
    - Institutional
    - Community town/gown
- Impact of Budget Model
  - Space is "FREE"
  - New is better
  - TCO – Who Operates it?
- People Turnover
- Master Plan vs. reality?
  - Where
  - Appearance
- Budget
  - When, how is budget set
  - Is it really set?
  - I could do it for half!

---

---

---

---

---

---

---

---

### Multi-purpose Athletics Arena Donor/Gift \$300M

Facilities Services/Management

Board of Regents

Design Team

What are your top 5 priorities?

User Group

---

---

---

---

---

---

---

---

---

---

---

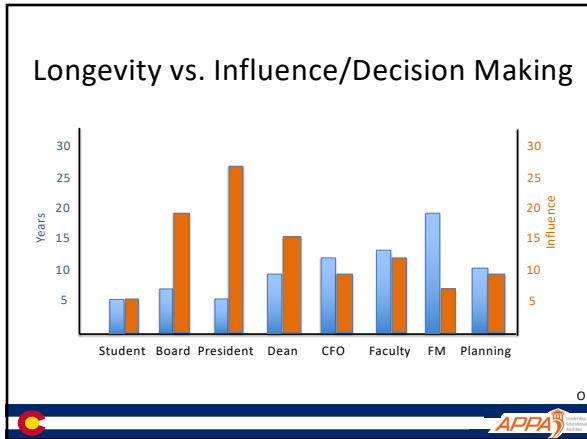

---

---

---

---

---

---

---

---

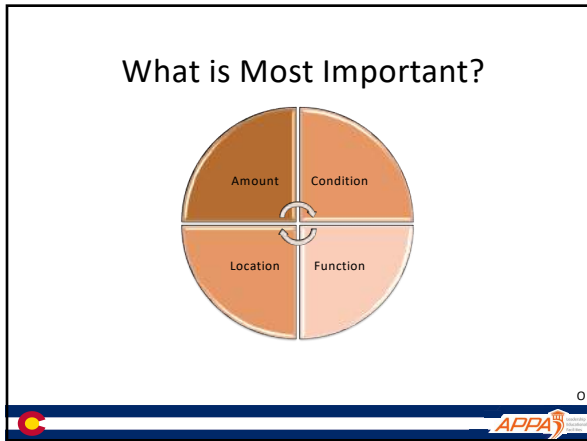

---

---

---

---

---

---

---

---

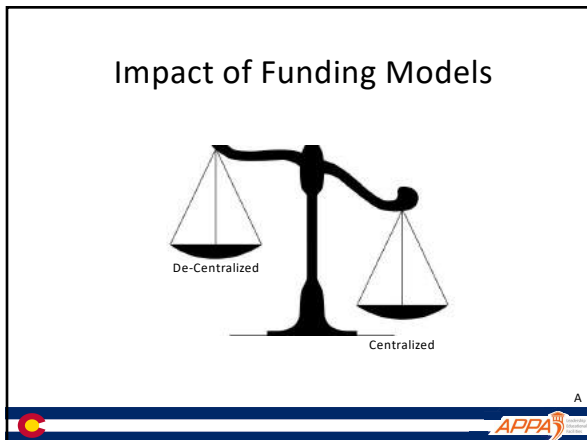

---

---

---

---

---

### Input During the Process

- Master Planning / Visioning
- Feasibility
- Programming
- Schematic Design
- Design Development
- Construction Documents
- Build It
- Own It
- Change It

---

---

---

---

---

---

---

---

### Internal FM Reviews and Issues

- Planning
- Design
- Construction
- Building Services
- Landscape Services
- Utilities
- Technology
- Role of Design Guidelines

---

---

---

---

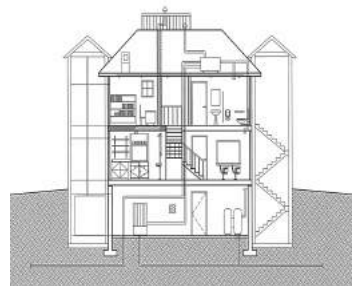

---

---

---

---

### Your House on Campus

---

---

---

---

---

---

---

---

### The Budget Challenge

- Who's money is it?
- Defining what is of value
- Who pays for what?
  - Capital
  - Operating
  - Maintenance
  - Repair and Replacement

APPA

---

---

---

---

---

---

---

### Investing in the Campus

- Balancing Initial costs with ongoing
  - Who should pay?
  - What is the best formula?
  - Who cares?
- Affects on the campus (puzzle piece)
- Gift vs. maintenance and operating costs
  - The 10 year rule
  - O&M endowment 100% of construction cost

APPA

---

---

---

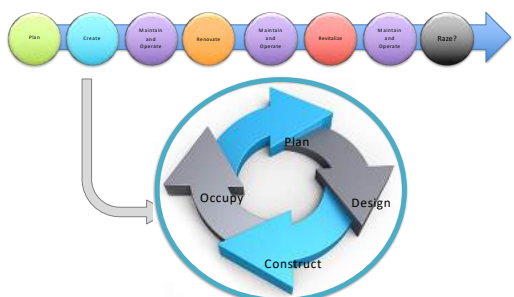

---

---

---

---

### The Life of $\pi$

APPA

---

---

---

---

---

---

---

### In Summary

- Importance of Planning
- Role of Project Manager
- Role of Building, Landscape, Utility Professionals
- Ongoing Budget Challenges
- ***Budget Officer Considerations***

---

---

---

---

---

---

---

### Competing Perspectives

***Thank You!***
