

USC University of
Southern California

APPA 2019 - ANNUAL CONFERENCE & EXHIBITION

JULY 15-17 | DENVER, CO

**These ARE the Documents You Are
Looking For...**

Jose Delgado – University of Southern California

Glenn Seehausen – Hagerman & Company

Agenda

- **Introduction of Presenters**
- **History of Document Management/Archives at USC**
- **Original Challenges and Objectives**
- **Main Benefits**
- **Demonstration of Software**
- **Summary**
- **Questions and Answers**

Introductions

- **University of Southern California**
 - **Jose Delgado** – Facilities Management Services
 - 28 years experience
 - Manages the Department that updates the Space Floorplans, GIS Maps, 3D Models and O&M Close-Out Documentation for all owned and occupied space
- **Hagerman & Company**
 - **Glenn Seehausen** – Senior Technical Solutions Consultant
 - 33 years of experience helping facilities organizations, with 22 years focusing primarily on University Facilities
 - Consulted with more than a hundred University Facilities groups
 - Glenn's unique approach to integrating document management/digital archives with the other technology systems and processes in Facilities has increased his customers efficiency and improved their key performance indicators (KPIs).

History of Doc Management/Archives

- **Business History**

- Management of Base Floor Plans
- Scanning and storing of paper archives
- Moved CAD files from Network to Doc Management
- Optimize Utilization
- On the go availability

- **Software History**

- Through 1997 - Rooms full of paper
- 1997-2004 - AM-Workflow (Cyco)
- 2005 – Present - Meridian (Cyco, then BlueCielo, now Accruent)

Original Challenges

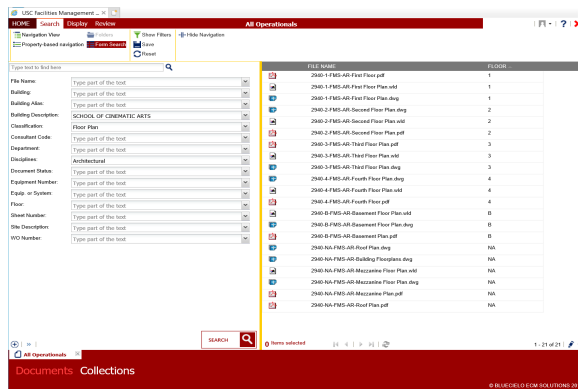

- Moving from paper, with deliverables beginning to come in as digital files (DWG, PDF, RVT, DOC, etc.)
- Copies and outdated versions “floating around” on user’s computers or on various network shares.
- SharePoint, Box, and other storage became just more versions floating around (similar to network shares).

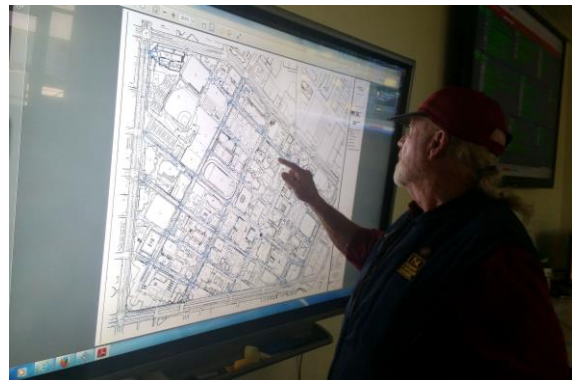

The Solution

- Meridian – A Central Repository allowing more staff/consumers to find, view, and print the right documents quickly, via:
 - Browsers on the desktop
 - Walk-up stations
 - Mobile

Browser

Walk-Up

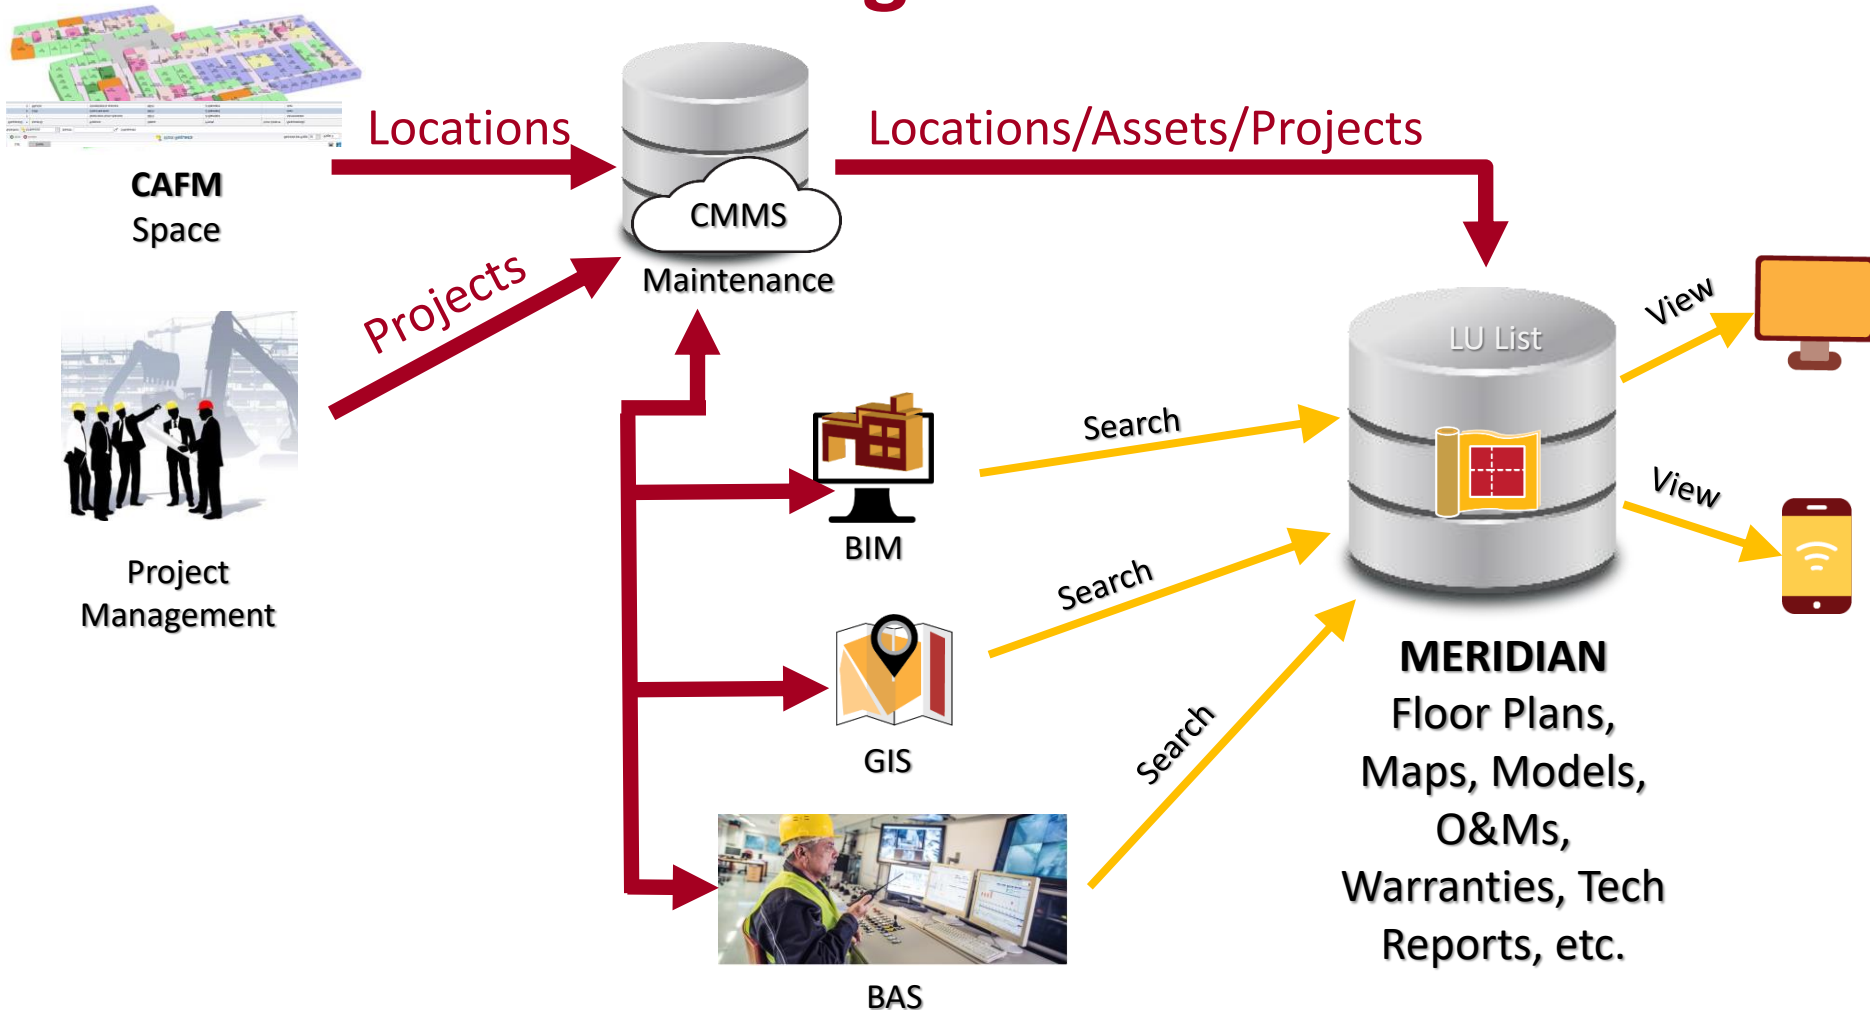

Mobile

Integrations

Benefits

- **Consumers of the documentation (i.e. front-line staff in Operations & Maintenance, Facilities Managers, Public Safety, Projects and Consultants), can find the documentation they need.**
 - Accomplished via integration of the Maps, Models, Drawings and Asset Documentation
 - Mobile and at Desktops
- **Instead of always finding documents for others, the CAD/Archives staff have time to do continual Meridian enhancements so that Consumers can find even more documents using better search data**
- **Version control – a go-to place for the latest version with an auditable history (Floor Plans, Maps, Models, Project Archives)**
- **One consistent place to go for all documentation**
- **Secure and reliable – People can see what they should and cannot see what they shouldn't. Security is easier to manage.**

Power User – Adding Documents with IntelliWizards (Second Tab)

The screenshot displays the USC Meridian - BlueCielo Meridian Enterprise 2016U1 PowerUser interface. The main window shows a project tree on the left with a list of documents under the '05. PROJECTS By Building Code' section. The '1E Electrical Floor Plan and Schedules.pdf' document is selected. The 'Properties' panel on the right shows the 'Location Information' tab, with fields for 'UNIVERSITY PARK CAMPUS', 'JEF', and 'NOT APPLICABLE'. The 'Create '1E Electrical Floor Plan and Schedules.pdf' - Enter/Edit Properties' dialog box is open, showing the 'General Information' tab. The dialog box contains the following fields:

- Doc. Class.: ☒ SH Schedules, ☐ FP Floor Plan
- Description: 1E Electrical Floor Plan and Schedules
- Doc. Status: Reference
- Consultant: C. Raimond Johnson
- Const. Firm: Unknown
- Date Authored: 4 /10/1948
- Date Revised: 5 /17/1948
- Media: Scan
- Media Location: CDF
- Master Format: ☒ 01 00 00 GENERAL REQUIREMENTS
- Asset Description: Schedules-SERVICES, ELECTRICAL
- Maint. Preferred: ☐
- Published: ☒
- File Name: 1E Electrical Floor Plan and Schedules
- Buttons: View, Store as My Defaults, Finish, Cancel

The background shows a detailed architectural drawing of a building floor plan.

Summary of Achieved Results

- Consumers saving time getting to the drawings and documents they need, from Desktops and Mobile
- Consumers can get the information they need without coming to the “CAD Services/Archiving Group”
- Consumers can get to the documents seamlessly from the other applications they use frequently (CMMS, GIS)
- Document Management integration discussions revealed opportunities for breaking down silos among the various groups and their systems (CMMS, CAFM, BAS, GIS).
